What My Neighbor Says

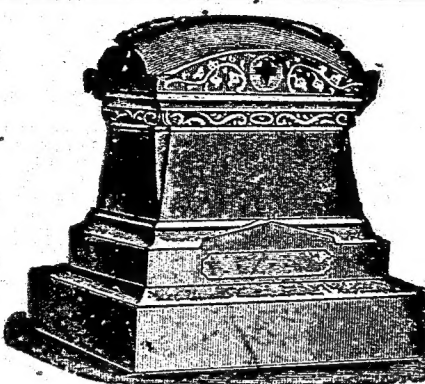

Is of Interest to Norway Folks

When one has had the misfortune to suffer from backache, headaches, dizziness, urinary disorders and other kidney ills—and has found relief from all this sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of a Norway resident. Who could ask for a better example?

E. C. Libby, tax collector, Sanborn, N. H., says: "I had a great deal of backache which annoyed me to do anything. My head ached and specks floated before my eyes, blurring my sight. I used different remedies but it was not until I took Doan's Pills to give me lasting results."

Four years later, Mr. Libby said: "I haven't had occasion to use Doan's Pills since they cured me."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Libby had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

In HER name---

a "nest egg" that pays dividends four times a year.

The June Bride, no matter how well she may marry, will welcome a little "nest egg" which she may call her own.

What more appropriate engagement or wedding gift could you bestow when she accepts the protection of the man of her choice than to continue your protection of her happiness by an investment in the 7% Preferred Stock of Central Maine Power Company.

It will mean a dividend check four times each year--

Jan. 1, July 1, Apr. 1 and Oct. 1--to spend as she pleases.

It will mean a safe "nest egg" should she ever have need for the principal.

Few wedding gifts could be more desirable than a part ownership in a growing and successful Maine hydro-electric company, where regularity of dividends and safety of principal have been well proven facts for nineteen years.

will do, the experience of Mrs. Wal-
ter Levesque, well-known resident
of 21 Beach St., Portland, Me., is
given just as she tells it:

"Karnak has been so wonderful
in my case that I have been getting
my friends to try this remarkable
medicine, too," declares Mrs. Le-
vesque. "Three years ago I had
influenza and typhoid fever, and
could never regain my strength in
spite of all my efforts. I remained

so weak that I could only stay on
my feet for a very short time with-
out having to stop and rest. I
would simply give out from walk-
ing a block. I couldn't eat
enough to give me any strength,
and was pale and felt lifeless all
the time. Why, just doing my
housework was more than I was
equal to.

"After reading of Karnak and
talking with people who know
about it, I began taking this won-
derful medicine myself, and in a
few days I could walk up the
hill from our house and just keep
on going without tiring out. That
was a sure sign my wind and
strength were returning, and I kept
right on with the medicine and be-
gan to eat hearty and feel splendid
in every respect."

Karnak is sold in Norway exclu-
sively by Frank P. Stone, and by
the leading druggist in every town.

A Bright Cheerful Kitchen

For the real mother and home-maker the kitchen, nursery and bathroom rank as the three most important rooms in the house, not only in sanitary arrangements but in beauty and comfort. White walls and woodwork should be kept a pure white in order to maintain most bright and cheerful surroundings. Barred Sunlight is the ideal light for white paint for this purpose. It is cheaper than enamel and much easier to apply, can be washed and won't need repainting for years. Contains no lead or varnish and dries with a hard, beautiful gloss.

Norway and Vicinity

At a recent meeting of the Jordan Scientific Society of Bates College, Roland A. Perham of West Paris and Albert P. Knightly of Norway were elected to membership. Theodore Brown '27 of Norway, already a member of the society, was elected to the executive committee. Membership in Jordan Scientific is limited to eighteen men of the Junior and Senior classes of Bates College, who have shown marked ability in the sciences. Meetings are held twice a month, when specially prepared papers on subjects of scientific interest are read by the members. The society was named for the late Dr. Lyman G. Jordan, who for many years was head of the chemistry department at Bates College.

Charles Davis of Rumford has leased the Norway Lake Pavilion and dances are held there every Thursday night with music by Carl Smith's Variety orchestra. Last Thursday evening 500 couples were present. On Tuesday evening, June 16, Marble's Orchestra will play for dancing at the Pavilion.

Joseph Dubey, while hauling rocks on Water street, recently, was hit by the wheel of a car and fell over the embankment hitting on a rock nearly breaking his leg. He is getting on well now and able to get out.

Mr. and Mrs. E. A. Merrill and son, Louis, of Minneapolis have been here visiting, making the trip in their car. They started for Minneapolis, Tuesday, and Mr. and Mrs. Charles H. Sargent accompanied them for an indefinite stay.

WHAT UNCLE LEM SAYS

It seems remarkable that there were no pastors of the church societies in Norway to assist Rev. Mr. Pearson in the exercises of Memorial Day. But then he was equal to all demands as usual and delivered one of the very best addresses ever heard in the Opera House. Perhaps it just happened that none of the clergies could attend any of the exercises.

Another remarkable occurrence was the sickness of some 150 girls (over half) of the New England Federation of Girls' Clubs at a convention at Webster Lake, Mass., following a banquet. Serving indigestible food may be "in good form" but often dangerous, especially to delicate stomachs and young people. Let the old eat and die if they choose to.

Ah! What a refreshing thing it is to be able to take a good cool breath of air after five-sweating days with the thermometer if the nineties.

Congress made a slip over in some of its increase in postal matters. It costs twice as much to mail a newspaper here as it does in the U. S. as to send overseas to England. Great is Congressional judgment. The Boston Herald calls it "Postal absurdity." Assurably is more fitting word, it would seem.

And what kind of sense is it to move an electric light and place where it shines into a cross street so that it renders the cross street a dark alley?

Amundsen, the discoverer of the South Pole, with his party, has been gone about three weeks into the Arctic regions to obtain definite information about the last of the world's unexplored sea routes. It. They are beginning to talk relief expeditions. Probably nothing will be done towards a rescue till it's too late. Why are some people so eternally slow?

What his dogme of Ex-Governor Baxter and his dogme?

It is reported on what seems to be good authority that boats and other property owned by the late Governor have been left without constant looking after. This is a bad state of affairs. Many complaints have been made of which notice should be taken. There is plenty of law against thievery and burglary. Catch some of the law breakers and give them a term at Thomaston. It would do great good and "preach terror" to the rest.

EAST SUMNER

Mrs. Eunice Foster passed away at the home of her son, Frank E. Foster, at East Sumner, Monday, May 30, at the age of 83. She was as well as usual the day before, and her death came as a sudden shock to all. She was loved and respected by all who knew her. Her husband died soon after returning from the Civil War. Mrs. Foster was one of the charter members of Union Grange. Besides her son, with whom she lived, she leaves granddaughters, Mrs. D. G. Tinkham. The funeral was held in the Grange Hall, Monday, at 10 A. M. attended by Rev. W. K. Houghton.

John H. Robinson, the last charter member of Union Grange, passed away at East Sumner, celebrated their 50th birthday very quietly, Sunday. They have always lived in town and have never been separated. Monday night, 30 of their friends and the country or sea came to a party. Mrs. Harold Gammon made a birthday cake. On the frosting were the words "Mary 1845, Martha." They received many gifts including food, money and other articles. They were much surprised and appreciated the things very much.

The Twin Town Nature Club of Norway and South Paris met Saturday at Happy Valley Farm and were entertained by Mrs. Lester E. Robinson and Mrs. Ella S. Hand. A beautiful dinner was served on the hill by the hostesses. 21 members from South Paris and Norway were present. Everyone enjoyed a good time and found several new birds to add to their lists.

Mrs. Harry Russell has been visiting relatives in Livermore Falls. Mrs. E. H. Stetson of South Waterford, Mass. has been visiting her sisters, Mrs. W. H. Eastman and Abigail Hildes Crosby. She lost her mother when she was quite small and was cared for by her grandparents, John and Dolly Hicks, with their own large family.

As a young woman she worked in mills, later learning dressmaking and she had a shop in Bethel for some time. In July 1884, she married Horace M. Fiske of North Waterford. She never had children of her own, but had a wonderful mother to the four of Mr. Fiske's, who always had reason to be glad their father married again.

The oldest son, William, had come home with his wife to live and after the death of her husband, she continued to live in the old home and everything possible was done for her comfort during her declining years. When a young woman, she joined the M. E. church at Norway.

She is survived by a half-brother, Richard and Henry Crosby, of Portland, the two sons and two daughters of her husband, their five children, and there are six great-grandchildren. There is also a step-daughter, Mrs. Flora Buswell, and daughter, Marjorie, of Portland, several cousins and a host of friends to mourn their loss.

By her death the community has lost a very dear person who was a friend to everybody, and none had an unpleasant word or thought toward her. She will be greatly missed in her home.

The funeral was at the home, Saturday afternoon, June 6. The Rev. N. R. Pearson, pastor of the M. E. church at Norway, conducted the services. She was laid to rest in Woodlawn cemetery amid a profusion of beautiful flowers.

Mr. and Mrs. Wallace Jones went to Portland last week Thursday with Mr. and Mrs. Will Bird and Charles Kimball. Mr. Knight went to Lewiston, Sunday, and got to Mrs. W. L. Flint at the hospital and left her at Norway.

Mr. and Mrs. Sidney Hatch and four children from Bridgton were at Jesse Little's home a few days last week.

Mr. and Mrs. Fredland Adams were Sunday guests at Wallace Jones'.

Henry Crosby of Portland was here to attend the funeral of his sister, Mrs. Rebecca T. Fiske.

Mr. and Mrs. Will Moulton went to Portland, Sunday, with Winfield Perkins to see his wife, who is still boarding here since coming from the hospital.

Amie Hazelton tripped on a box about two weeks ago and scraped her leg and having a bad time with it as two running sores were formed.

John McAllister took a load of children to Albany, Memorial Day, and Winfield McAllister took a load of people there with his new stage truck.

The Most Simple, Lightest Draft Windrow Loader

We want you to come in and see what we believe is the lightest draft windrow loader ever built—it is so light draft that one man can pull it, on level land, elevating a fair-sized windrow onto the wagon.

JOHN DEERE

Dain System Windrow Loader

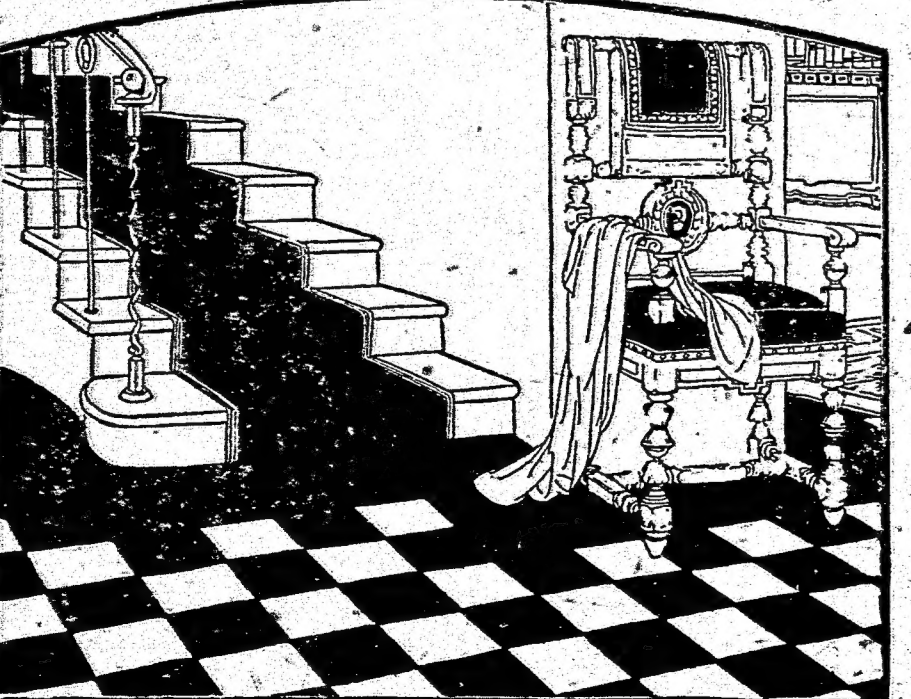

The Dain System Loader is light draft because of its simple construction—only one cylinder or drum, and is mounted on the axle. There are no gears. The loading parts are slowly driven; there is no beating or threshing of the hay; hay compression parts are automatically yielding, giving ample capacity; and the frame is mounted on the wheels in such a manner that the loader pulls easily under a heavy load.

The Dain System Windrow Loader is especially suitable for hilly land and for handling hay that has been air-cured in accordance with the Dain System. This loader will handle beans, alfalfa, clover and other kinds of hay gently without loss of leaves.

Don't forget that the Dain System Windrow Loader is on display at our store now.

What Whiting Has to Say of the Norway Advertiser

The following is a reprint from the Boston Herald of the issue of May 19 in full to let the home folks know what Mr. Whiting in his column in the big Boston paper has to say about us. We agree with his assertions.

What's Going On? Look in Town Papers. What is news? A thousand definitions leave us where we start. City newspapers have their ideas of what is news; big-city newspapers. Small-city newspapers and country papers, have other ideas. Is this news?

"Gertrude Abbott is home from Gould Academy entertaining the nuns." That item is from the South Waterford news in the Norway, Me. Advertiser. And it is news in South Waterford, and in Norway, and at Gould Academy, and in other towns in that region. In yesterday morning's Herald we read that the Board of Ypres is recovering its health. That is news, too. But less interesting than the affliction of Miss Abbott—to her home town.

Still studying that excellent newspaper, the Norway Advertiser, and observing events among North Waterford folks, we learn that "Mr. and Mrs. C. A. Hersey and family went to Locke Mills, Sunday afternoon, May 3, and saw the place where his sister is now living but did not find them at home." And that is news, too. But less interesting than a plan to travel by automobile from coast to coast in seven days without stopping—which was news in our favorite paper yesterday morning.

What's going on in West Backfield, Me. This for instance: "The Seawaves go club has a profitable and new social meeting at Mrs. E. A. Copper's, Friday, May 8. There were nine members, one visitor, Mrs. Bessie Buck, and several children present. And that is far more informative to the folks of West Backfield than would have been our own paper's account of the youth and peace movement on Boston Common, Sunday."

What's the news from Fish street? From the same Maine source we find that "D. Charles has bought a Ford truck." In yesterday's Herald we saw the interesting statement that Charles C. Stillman of New York has endowed a professorship of poetry at Harvard. The professorship will do great good work and the gift is generous and well-thought. And the new Ford truck of brother Charles up in Fish street—on Fish street—will very likely provide improved service for the neighborhood.

At Albany, Me., "our R. F. D. man, E. O. Huley, is having quite a good deal of trouble getting the new postal rates adjusted on the route." Near in our town we hear a good deal about the difficulty of the Boston & Maine railroad to adjust itself and its patrons to new conditions.

We find from the Norway Advertiser's advertising columns that you can't know and town or city without reading the local newspaper's advertising columns—that Mrs. Elmer Pratt of 9 Pleasant street, Norway, has for sale "all kinds of pie filling and apple butter." We wish Norway were nearer. How is Mrs. Pratt on apple pie filling? We'll bet there isn't a piece of apple core or a seed in a gallon of her pie filling. You'll find several interesting food advertisements in the Herald every day—of course.

Every newspaper has its share of melancholy news. Here's an item from the Greenwood correspondence in the Advertiser of Norway: "Lillian Blag went to Norway, Saturday, and after having 16 teeth extracted drove the car home. His father, Wesley Ring, and Mrs. Bryant accompanied him." It must have been a rather dismal ride. But in a little while Lillian will be all fixed up with the kind of teeth that don't ache or cause rheumatism or indigestion or headache or falling eyebrows or dulled hearing or anything. And Lillian Ring was for a day or two, at least, a notable man in Greenwood. Just as you are a notable personage on your street if you have just returned from a distributing visit to the hospital.

What's going on at North Paris, Me. For one thing, "Clarence Coffin is laid up with a sore finger by getting it hurt while working on the road." Is that "small town stuff"? What are the events in town that interest you most? When your wife cuts her finger, or your little girl barks her shins or the little boys sit in the fireplace—that's not news of interest to you. That's the state of health of the American or Afghanistan or the King of Spain.

How about Norway itself? We find that "Spanning Abbott has brought in a piece of wood which was blown out of the ditch when blasting at the Jackson quarry. There evidently at some time in the past was a beaver dam in the vicinity and the marks of the teeth and work of the beavers are still visible." That is far more interesting to the folks in the valley than the uninteresting of a tomb in the Valley of the Kings of Egypt. Beside the home of a relative of ours long ago workmen dug up some ancient human bones, and some of our heads—for there in the valley, in days of defense against Indians. And every time we think of the stories hidden in that little fact our imagination is just as far as when we read of the diggings in Carthage.

Also in Waterford lives L. R. Rounds and family; and of course they take the Norway Advertiser. It comes to their home in the name of "Betty Rounds." And Betty is the family horse—Mrs. Ruth's pet. Very likely Betty-Rounds is the only horse in Maine or anywhere else who subscribes for a weekly newspaper. And that item of news would be news in any newspaper anywhere in the world.

At South Albany lives Mrs. Lemora (Abbott) Lebrooke, who made 1270 pounds of butter from May 1, 1924 to May 1, 1925. She also assisted with the milking. Mr. Lebrooke from one to three cows every night and morning for the whole year. She is 60 years old, "but," says the Advertiser, "few of the younger ones can step along with her."

What is news? You will find a wealth of it—genuine human news in the press of the small cities and towns of New England.

"Cato." "There are people who owe more to bitter enemies than to their best friends—the former often speak the truth, the latter never." What a hideously frank old duffer Cato was!

To a fisherman the other side of the creek, always looks better, but when he gets over there he finds about six inches of water.

It is so easy to recall while shopping in a ten cent store, that it is not the cost of a gift, but the heart back of it, that makes the gift valuable.

BETHEL

Bethel Power Co. Sold to Central Maine Power Co. The Central Maine Power Company has agreed to purchase the Bethel Light and Power Company, officials of the former company have announced. The merger will be consummated July 1, with the requirement of the stock and absorption of property of the Bethel Company.

Construction of an 11,000 volt line over a fifteen and half mile stretch of Oxford County hills from West Paris to Bethel to connect with the Bethel Company lines is already started. The new line will extend through Bryant Pond, Locke Mills and Walker's Mills. Bryant Pond has a power system of its own. Industries are to be thereby insured an unlimited source of hydro-electric power to become a potent factor in the development of its natural resources.

Miss Elberta Burnham Funeral services were held for Elberta Burnham at the Congregational church, Sunday afternoon, May 31, conducted by the Rev. S. T. Achenbach, the pastor. Miss Burnham was a faithful member. The services were largely attended. The lodge to which she belonged attended in a body. Beautiful flowers in profusion, mite offerings of love for the loved one who had crossed the Bar. Literally covered the casket and altar.

Miss Burnham was the daughter of the late Pinckney and Betsey Austin Burnham and had always lived in Bethel. She leaves two sisters and nieces and nephews and a host of friends who sadly miss her passing from this life.

Delegates to the Camp Magua Convention from the Y. W. C. A. in July are Elizabeth Mason, Lynda Barnett, Edna Berry, Sylvia Grigor and Pearl Sampson. The Rev. G. B. Oliver and Mrs. Oliver are entertaining their mother, Mrs. Oliver, from Bethel.

Ralph Berry has moved his family to their new home in the Pottery. Mrs. M. H. Philbrick of Mexico called on her parents, E. B. Peterkin and wife, Saturday, May 30. She, with her husband, Mr. Philbrick, and a party of friends were en route to Shelburne, N. H.

Mrs. E. F. Peterkin and family entertained, Sunday, her cousin, Mrs. Lugalls, Dr. Prigton, her daughter, Mrs. Ruth Gifford, her daughter, Mrs. Weymouth, and family fall of Bridgton. Furniture for the new dormitory is being placed in the building.

D. E. Smith entertained his sister, Mrs. Ruby Cunningham, from Gorham, N. H. over Memorial.

Frank Mason of Boston and niece of Bethel, N. H., were in town, Sunday, May 31. Mr. and Mrs. Fred Clark returned from Errol, Saturday night, May 30. Mrs. Angella Clark was a recent guest of Mrs. A. E. K. Grover, also of Mrs. Ella Peterkin. Mrs. Clark is nearing her eighty-seventh milestone and is as active as many much younger in years.

Levi Bartlett experienced a slight shock a few days ago but is able to be around now.

Mrs. Annie Willey was called to Bethel on account of the death of her mother, Mrs. Stearns, at the home of her daughter, Mrs. E. B. Gifford.

Mr. and Mrs. Clyde Bean of Gorham, N. H. are visiting Mrs. Bean's sister, Mrs. Harry Brown and family.

Alice Brown of Brockton, Mass. is at home for a time with her parents, Mr. and Mrs. Frank Kendall, Spring street, over Memorial.

Charles Jenkins of Upton was a business visitor in town recently.

Mrs. Loretta Bartlett had a slight ill turn but is improving. She is with her daughter, Mrs. C. B. Bean. Mrs. Bartlett is nearly eighty-three and always an active woman.

Malcolm Bean, Esq., of Boston was a week end guest at E. O. Park's. Will Mills of Poland Springs was a guest of his sister, Mrs. Walter Bartlett, and family, Tuesday.

Bessie Sloane was in Auburn over the week end at the home of her son, Roger Sloane, and family.

Gertrude Chapman has substituted in the grammar grade at West Bethel for a week owing to the illness of the teacher, Mrs. Mason.

Saturday night a shower relieved the intense heat and was besides a brilliant display of lightning.

There were a number of former Bethel people who spent the week end here with friends and relatives.

Levi Bartlett is still under the care of a nurse.

Laura Taylor is home from Boston University for the summer.

Mr. and Mrs. Frank Kendall were at West Paris to visit their daughter and family, Mr. and Mrs. Walter Ring, recently.

The Berlin Mills Grain Co. has purchased the Purinton store building which they have rented for some time. Wesley Wheeler will continue as manager.

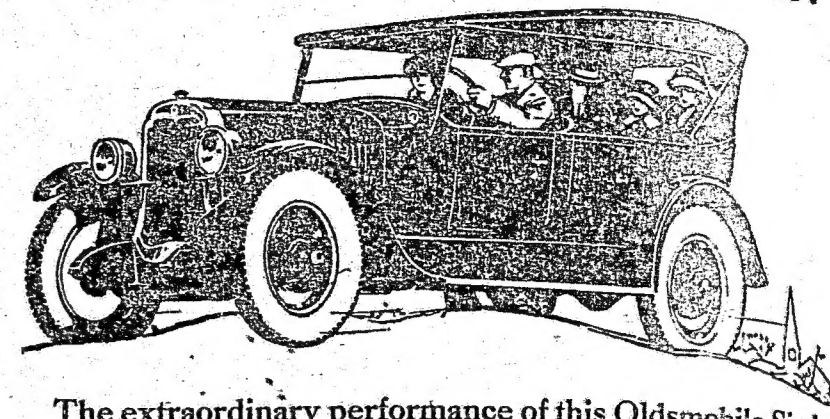

NEWRY Duncen McPherson was at home for the week end.

Mr. and Mrs. F. I. French have been ill at their home at the village.

Mrs. H. S. Hastings visited at G. H. Learned's last week.

HUNTING BIG TROUT IN MAGALLOWAY WATER

Bosebuck Camps

Yes, I'm here! I left the place last August when the river was 20 feet lower than now. I suppose I should have said Lake—Abasco Lake, or, as often called, Lake Sawyer, in memory of the late Walter Sawyer, engineer and builder of the big 13 mile cement dam here, and who for many years was the superintendent of the Union Water Power Co. of Lewiston, Me.

The old river wound its zig-zag way for many miles by heavily wooded shores undisturbed except by log driving and fishermen. My first visit was 29 years ago this June, and F. P. Flint was guide, the same person who now owns these camps and entertains hundreds of sportsmen each year. The river has been plowed out by the dam and become a lake. Its widest part is four miles and some 15 miles in length.

The camps are situated near the junction of Big and Little Magalloway. The eastern shore from where I sit a mile away. An island is between me and the mountain opposite, over which the sun rises.

F. P. Flint has sporting camps, a dozen or more. They are rudely constructed, but comfortable. There are many canoes and two motor boats, several "egg beating" kickers. The nearest fishing ground is one and a half miles away at this height of water. You have to go to quick water for trout and salmon. Trilling in the lake not allowed, nor is the bait fishing. Trout legally caught come

er's number is 18287 and I'm wondering if the makers have really made that number of canoes. It is a nice craft and new-worthy and is propelled by a Johnson Motor which up to now has not refused to kick. It has run over some driftwood and found a few stumps even at this high pitch of water. Driftwood and stumps plague Walter and mar the paint on the boat. At high water much of it is floating.

Only a small cut of wood has been made this winter, three booms are to be taken out when driving from the big lakes stop. This is done so as to save water. Sluicing through the big dam is expected to commence by June 15. It will take only a few days if wind is favorable to get it below the dam.

Water is rising about one-half an inch in 24 hours. Water is within 14 inches of the top of the 3-foot flash boards on the dam. When sluicing, water drops an amount to sluice, the lake will be pretty nearly full when driving stops and consequently a big reserve for the usual summer drought down river. This is a condition much desired by the manufacturers on the river.

There are three public camps here: Walter Buckman's, Nason's and Flint's. Forty or so sports can have good accommodations. The fishing at the present time is confined to the Big Magalloway river up to Farmington Falls, 3 miles, and where the river enters the lake. It is fished continually and sufficient are

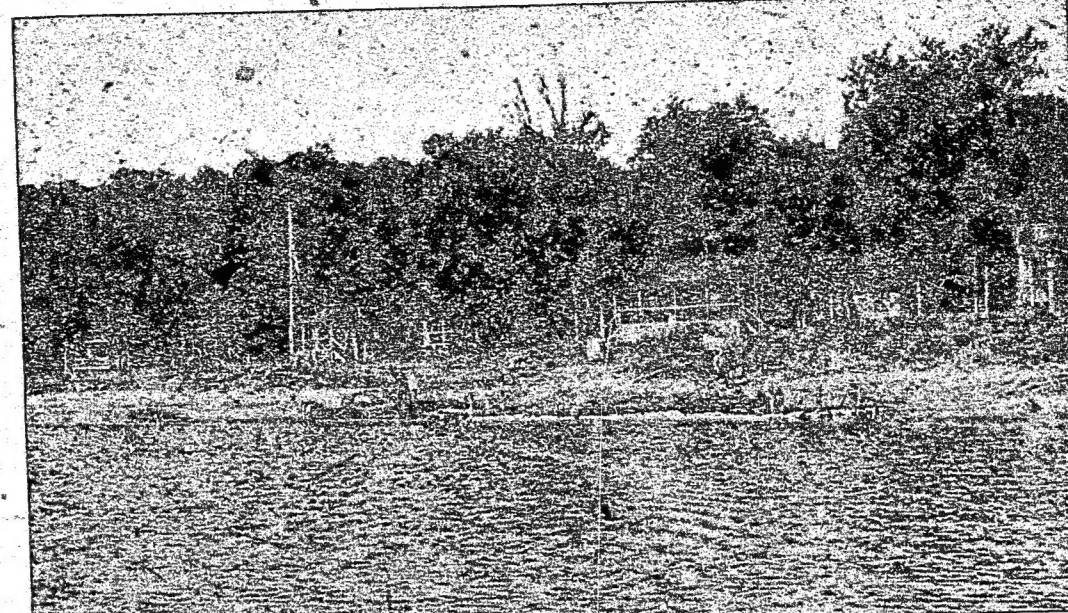

familiar on short acquaintance and was some shocked and peevish until she learned the next day that it was the chore boy who was thus addressed rather than herself, by Mr. Flint.

Sgt. Bennett with characteristic laugh, came and "kicker," is here. The kicker won't work satisfactorily and has been sent to South Bend, Ind., for repairs. In the meantime Sid applies the paddle when "a tow" is not available.

George York has been discovered. He was lost to friends at Middletown. When I heard from him he was guiding at Thompson's Camps, Selago Lake. He is now here and very much in evidence as a witness to the big fish I caught and returned to the water.

A clipping from a paper sent to E. A. Greenleaf, announcing the catch of a 27 pound salmon from the Bangor pool furnished Elgin with a theme of discussion. It was sent by W. A. Bicknell, buyer of raw furs, of Norway.

Tom Tracey was born in Bangor, but now lives in Magalloway Lower Settlement. He was here as guest of Mr. Brown of the Berlin Mills Co. Tom has worked for this company for fifty years, being retired with full pay pension two years ago. When Mr. Brown and wife go fishing, he takes Tom along with him to talk over matters regarding the interest of the company. Thomas J. Tracey is a brother of Truxy Tracey, who has been house detective and night watchman at Kinco House for the past quarter of a century. Truxy is about 80 and on the

Bosebuck Camps as seen from the Water. F. P. Flint, Proprietor, Wilson's Mills, Me.

to an artificial fly though much of the lure now in use represents a shiner or smelt and is sunk in the water when fishing. Trout will take them on surface, but usually follow them up from the depths.

I have had reasonably good success in keeping with the others and there are a dozen or more fishermen here and some of Nason's Camps. At this writing I have taken 8 trout, 1 salmon and 8 chub. The largest of the latter weighed 1 1/4 pounds and the largest trout 1 1/4 pounds and the largest salmon 1 1/4 pounds. The chub are locally known as "Magalloway Salmon" and are numerous in their season as are the mosquitoes and flies—black ones and no-see-ums. The little boater inside, but in evidence when weather will permit. Since my coming here has been too cold for fishing, the fishing has continued to even if woolen mittens are worn.

Immediately after the lake clears of ice, trout seek the water where they remain for a few days only. This is the habit of salmon. During this time

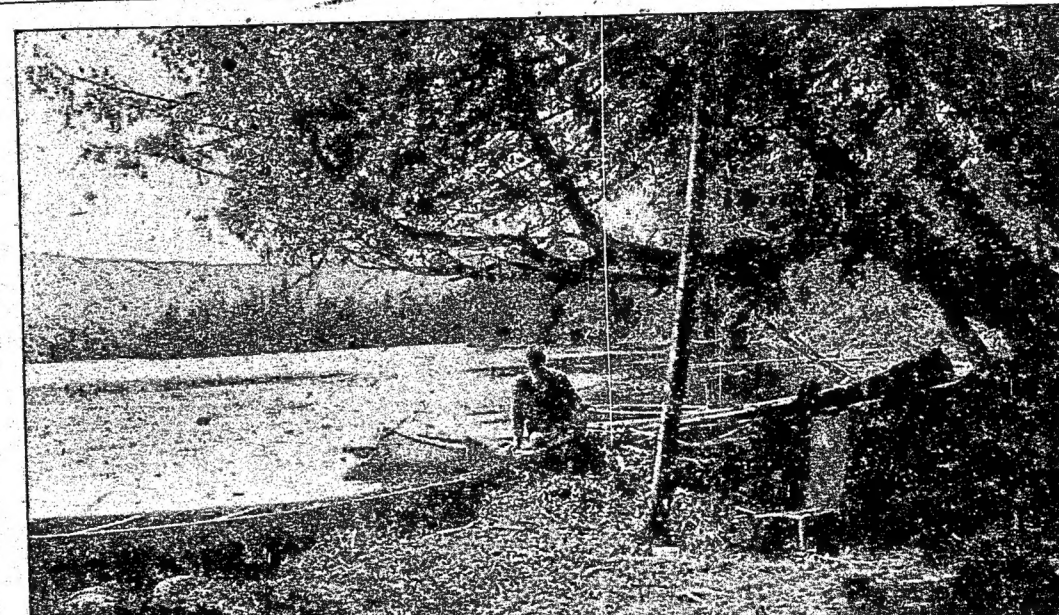

caught to make it interesting, though seldom a great catch is made. One good fish per day to a party is enough. A good fish is one that will weigh from two to six pounds. Several larger than six pounds have been taken. High water is the best time to fish. Last year Mr. Philbrook of Framingham, Mass., got a 6 1/2 pounder from Dead Horse pool and that was the "white" of the season. The daily limit is three pounds or one fish, and you are limited in number to ten fish. In other words you can catch ten trout in one day provided the weight is 3 pounds or less, or you can get one fish, no matter what its weight. The rules are lived up to pretty carefully and I assure you no fish are wasted. Worms and shiners or the fly are sometimes used for bait. I have seen evidences of this but none in actual use. It is impossible for the state to protect these waters unless guides and camp warden will assist. Game warden cannot be ever present.

Eddie Bernier of Berlin, N. H., hook bait at the camp, became sick and had to leave the camp. Mr. Flint is securing the country for

retired list. You should have heard Elgin Greenleaf and Tom Tracey talk over Bangor characters of fifty years ago! The register at Bosebuck Camps shows that 254 sports were there in 1920. The following year 1921, 246; in 1922, 295 guests; 1923, 300 and for 1924 it dropped to 285. To date (May 21) 34 have registered. The season has been cold and backward, but a fair number of trout have been taken. The upper river is free of logs, hence more opportunity for anglers.

The block of pumpkin pie recently received by the Weary Club whittlers was sent by Ernest C. Bennett of Wilson's Mills and not his brother, S. W. Bennett, whom we wrongfully accused. This I apologize to Sid and extend thanks to Ernest. The pie is all right and will furnish many hours of innocent amusement to the Wearies. Straight grained cedar is hard to find here and for whittling I have substituted pumpkin pie which is plentiful and of good quality.

The expense attending the getting of big fish is also big. That is, big fish run

Landing at Lincoln Pond, where Flint has a Comfortable Camp and Plenty of Fishing

they are ready feeders and will take bait and flies. The latter must be sunk to obtain the best results. A streamer or long-tail, representing a minnow, if skillfully handled, gets the most fish, though occasionally they will come to the surface.

This season I have caught sixty trout and salmon all of them coming to p "duster." Only few have taken it on the surface. Over half of them were taken on a contraption of a feather pul to have named the fly "Ike's Last Resort."

A year ago I took more than a hundred weight of fish on that variety of lure. Please don't think I've killed all these fish. I have not, only a few have been killed since was needed. Up to now this season I've killed only six fish out of the 46 taken.

Elgin Greenleaf of Norway came along with Walter and I to see the country and relate fish stories and hunting adventures. Incidentally beats him at cribbage which pleases him greatly. While I'm writing, he is out fishing. We have a new Kennebec Sponsored canoe, mak-

another cook. He has probably found one here. During the time, Mr. Flint on table. She recently came over to this country from England and married Will Kilgore, the guide. She is a well known waitress but unfamiliar with American names for food, which causes her to blush when she makes a mistake and calls "porridge" instead of oatmeal. I asked for molasses and she was some bewildered. I explained and called it "sorghum syrup" and she caught my meaning and brought molasses, saying she was used to hearing it called syrup.

The chore-boy is a Canadian, bright and active. He has a sister who helps him; neither can talk much English, but she is called "Rosie," is a white; I explained and called it "sorghum syrup" and she caught my meaning and brought molasses, saying she was used to hearing it called syrup.

Wednesday of last week Miss Minnie Littlefield, Mrs. A. E. Nelson and Mrs. Edwin Allen attended the church conference at Harrison and all reported a most helpful and pleasant time. I have not, only a few have been killed since was needed. Up to now this season I've killed only six fish out of the 46 taken.

The yearly meeting of the East Stoneham church was held in the vestry, Thursday evening, June 4. There were about a dozen present and after the supper, which was served by the ladies, the affairs of the church were discussed. Edith Allen resigned as treasurer, an office which he had filled very successfully for a number of years and Mrs. Blanche McKean was elected to take Mr. Allen's place. Charles Chaplin, Silas Stearns and Edwin Allen were elected as Trustees of the church and Mrs. Olin Cobb as clerk. Mrs. Olin Cobb resigned as super-

Mrs. Mary Raynor is improving from her recent sickness. Arthur Putnam and family of Reading, Mass. are occupying their cottage on the lake shore. Mrs. L. M. Bartlett, Mrs. Blanche McKean, Mrs. Curtis Bickford and Mrs. Otis Cobb drove to Norway last Thursday endeavoring to get cooled off as you will remember that last Thursday was a pretty warm day. While in Norway they called on Mrs. Fred Bartlett, who has been on the sick list but who is up around now.

Miss Elizabeth Bartlett of Norway made several calls in town, Monday afternoon.

Mr. and Mrs. J. M. Bartlett, Mrs. Curtis Bickford and Mrs. Blanche McKean drove to Portland, Sunday. Stoneham was visited with a heavy thunder shower Saturday night, accompanied by a downpour of rain and a high wind. Sunday morning the thermometer stood at 84 but in an hour's time it had dropped 20 degrees so that the day was quite cool.

Mr. Edwards and friend, Mr. Fish, have returned to the home in Somers, Mass., after spending ten days at the Edwards camp on the lake. Mrs. Owen and daughter, Margaret, of Massachusetts, together with Mrs. Owen's brother and family of Jacksonville, Fla., arrived last week to occupy their cottage on Lake Keowaydin. Mrs. Owen's stay was for only a couple of days but the rest of the party will be here for some time.

Mrs. Raymond McAllister was visited, Friday, by her mother, Mrs. Almida Flanders, Charles Flanders and Mrs. Flanders.

In looking back, I notice that a 4 pound 3 oz. fish cost \$1.05, that was in 1923. The following year, 1924, two trips were made into the lake, one at an expense of \$1.05 and the biggest trout that came to me was 2 1/2 pounds. Walter Smith, guide, netted a dead trout found under a log that weighed close to 7 pounds. The fish had been hooked in the gills and broke away and died from effect of wound. A large hook had been used. It was very sore covered with a shiner. Contrary to the law made and provided, it was a noble specimen of trout and worthy of a better ending.

The chore-boy for 8 days at an expense of \$131.00 and resulted in getting one big fish and 18 smaller ones, 3 small salmon and 9 chubs. Total expense of the trip was \$482.61, exclusive of the cost of a guide. Walter did the guiding and he draws an annual salary which is not reckoned in the above summary.

I'm hoping to return in August and visit the brooks where big fish are sure to be waiting for me.

One of Mother's Principal Worries

is watching over the health of her children.

Is your youngster restless? Are there signs of worms? You know the symptoms: pale face, coated tongue, dull eyes, itching of the nose, constipation.

Dr. True's Elixir

will relieve these conditions and has the effect of bringing back your child to renewed health and spirits.

Its pleasant taste and its soothing, clearing and cleansing properties make it especially effective as

knows no rival for that old-fashioned home-baked taste. But then we bake our beans mother's way. They are picked over by hand, seasoned to taste, baked in big brick ovens to a tender, flavory deliciousness, and canned piping hot. You simply open and serve.

WOMAN'S BACK STOPPED ACHING

I Suffered Three Years. Relieved by Taking Lydia E. Pinkham's Vegetable Compound

St. Paul, Minn.—"I have a little girl three years old and ever since her birth I have suffered with my back as if it were breaking in two and I have felt as if something were falling out all the time. I also had dizzy spells and was sick at my stomach every month. I had read several letters of women in the newspapers and the drug-

gist recommended Lydia E. Pinkham's Vegetable Compound to me. As a result of taking it my back has stopped aching and the awful bearing-down feeling is gone. I feel stronger and do all of my household and tend to my little girl. I have also taken Lydia E. Pinkham's Liver Pills for constipation. I have recommended these medicines to some of my friends and you may use this letter as a testimonial if you wish. I will be pleased to answer letters of inquiry from women who tell me they have tried this medicine has done for me."—Mrs. Price, 147 W. Summit Avenue, St. Paul, Minnesota.
